

The Global Cooperative Order

The old moral, social, and political “order” of humankind is now dead. A new and true and right Way of order of humankind is, now, and forever hereafter, necessary. This Free Declaration is the Seed-Utterance of that new and necessary Way of true and right (and truly globally, totally, and universally cooperative) order.

Humankind is in the position, right now, to make some very important judgements about life, and about the relationships between people—and about Reality Itself. As a result of that judgement, either there will be universal war and death or, alternatively, humankind will become established in a Global Cooperative Order, based on the working-presumption of universal prior unity and the universal world-“homeland” that belongs to all of humankind (and, indeed, all of Earthkind).

It is not naïve to suggest and expect a profound change in the conducting of global human affairs when those who could make the demand for change number in the billions. Nor is it folly to try to re-orient humankind when the only alternative is universal slavery and the culture of death. Therefore, all must commit themselves to understand the patterns by which they are now (and have traditionally and historically been) living (both individually and collectively), so that they can then change those patterns and the destinies those patterns will (otherwise) inevitably inflict upon them.

The necessary right and true Global Cooperative Order is not a totalitarian order—that, of course, would not be positive. However, a totalitarian order is exactly what could come about through the disposition of conflict that is now ruling the world . . .

It is a matter of the greatest present-time urgency that the prevailing global mood of political separatism, end-game competitiveness, and endlessly multiplied divisiveness be immediately and thoroughly and universally and permanently relinquished—such that the entire world-population of humankind becomes universally intelligent with the heart positive mind of cooperation and tolerance.

Everyone should become positively disposed to the establishment of a real and true global cooperative human community—because that global cooperative human community is not merely a “utopian ideal”, but a practical and actually realizable necessity for the physical survival and the natural well-being of humankind and even all of Earthkind.

The world of humankind as a whole must, now, and forever hereafter, embrace and maintain a new, true, and (because of the now global mutuality of humankind as a whole) unique integrity of civilization wherein and whereby all religious, cultural, social, and political traditions, systems, and institutions are perpetually disciplined (and, thus and thereby, kept in balance) by means of the civilizing global exercise of the principles of totality, universality, prior unity, tolerance, and cooperation.

If there is a lapse or a failure in that “self”-disciplining integrity on the part of the universal totality of humankind, then religious, cultural, social, and/or political factions can (and will) arise in the midst, and even become everywhere (and in a totalitarian manner) dominant, by exploiting the divisions, and the weaknesses, and the ignorance of the otherwise separate parts of the human world.

Therefore, the now necessary global civilization of the totality of humankind requires the “self”-discipline that is the universal, and comprehensive, and all-including exercise of holistic integrity—or the everywhere exercise of the principle of prior unity, demonstrated by means of mutual cooperation and mutual tolerance (and, thus and thereby, the self-enforcement of a global state of peace)—and this rather than the totalitarian achievement and authoritarian enforcement of universal global “Rulership” on the part of any separately particularized idealism (whether religious, cultural, social, or political in its nature).

By means of the universal global exercise of active true civilization by the “all” of humankind together, all totalitarian idealisms—whether religious, cultural, social, or political in their nature—must be required to renounce and relinquish their presumptions of superiority and their programs of global domination.

However, if humankind as a whole does not establish and embrace a truly civilized Global Cooperative Order (and a globally effective Global Cooperative Forum), all those who imagine they have the exoteric “Rights” of ego-based exclusive “Revelation” (whether religious, cultural, social, or political) will never cease (by every kind of exercise of “Power” and “War”) to pursue authoritarian and totalitarian world-domination by means of the final establishing of “Kingdom” and “Rule” by their own “Winning Side” . . .

. . . There is only one human “Power” on Earth that can restore the “Balance of Power” and prevent the global conflagration now planned by the “Mummers of Religion”.

That “Power” that must now Dissent, and Nay the course of all the “Holy Plans”, is the “Humble Unity” of the all of humankind As One.
